Web Development (Intermediate)

</> Project: CreatorsFIU—FIU Virtual Marketplace
</> Lead: Nafiul Khalid
</> Tools:
Frontend → React.js, Bootstrap, JavaScript, CSS, HTML
Backend → Node.js, Express.js
Database → Firebase/Firestore

</> Keys:
 # "What will we be building?"
A virtual marketplace (like Amazon) to showcase, sell, or exchange **digital/creative** assets.

 # "Okay, but why exactly this?"
With active participation, this project can offer you hands-on experience with:
1. Search Algorithms (Like Google/Amazon)
2. Sorting & Categorization
3. Dashboard Switching (Creator/General)
4. Payment integration
5. Shopping carts, wishlists, & Database Management
6. User Authentication (Signup/Login)

… and **more** as we evolve the project!

 # "What digital/creative assets exactly?"
It can be templates, arts, crafts, code snippets, graphics, study notes, and more.
Even **custom orders placements** for unique designs or products

 # "But Nafi, isn't it too much? Will I be able to do it?"
You will never know everything—and that's okay! What matters is showing up, learning as you go, asking for help, and contributing. Resources? We've got you covered, buddy!
